THE AMORGIAN EXPERIENCE & DISTILLERY

Traditional Amorgian house from the 1800's.

Experience true Greek hospitality in a traditional Amorgian household of the 1800s. Located in the beautiful village of Tholaria, "Paraskevo's" house, is one of the oldest houses in the village. Built in traditional Cycladic style, with whitewashed walls and blue window shields and doors, "Paraskevo's" residence is a must-see for visitors of the island.

Upon your transfer at the village, you will walk through quaint cobblestone streets, traditional tavernas and friendly locals. When you arrive at the traditional house, our guide will welcome you with a traditional Greek sweet and a delicious glass of raki and take you through the tour of the house which has walls dressed in old black and white images of the families who had their residence there. Our guide will also explain the architectural structure of the house and the various uses of the rooms, including the famous Greek wood oven area, also known as founos and the cellar which was used for storing food and agriculture tools in addition to wine.

GUIDED HIKING TOUR

Path #2: Palia Strata - The Old way

This is a spectacular hike that covers about half of the length of the island and provides panoramic views of both sides of the sea. It begins at Panagia Chozoviotissa, the 1000-year-old Monastery and follows the ancient path for about 10 km (6.2 miles). Stopping off the area of Kapsala, you will see the first monk cells that were built in caves and the rural settlement of Asfontilitis which is full of wells dating from the antiquity. Towards the end of the path, you will stop at the traditional fishermen village - Potamos. Even though the route is well maintained, it is still quite rocky, so we would recommend wearing comfortable shoes for this one. It starts at 160 m (524 ft) above the sea level and rises till 460 m (1509 ft), then descends till 290 m (951 ft) and rises till 385 m (1263 ft) again.

**Comfortable sneakers, sunblock/SPF and hats are highly recommended.*

A labyrinth of typical Cycladic alleys leads to the Kastro (castle) built on the top of an impressive rock. Located in a 16th century mansion house, the Archaeological Museum of Amorgos presents interesting and cultural findings of the island.

The Monastery of Panagia Chozoviotissa

This 1000-year-old Monastery is built 300m above sea levels, on the cliffs overlooking impressive views of the island. Home to the miraculous icon of the same name, it is one of the most remarkable and most visited monastery's in Greece.

Agia Anna (Big Blue)

The tiny beach is pebbled and the waters deep and clear, ideal for snorkeling and diving activities. If you swim out far enough, you will be rewarded with the sight of the Monastery clinging to the cliffs high. And if you would like some privacy and don't mind a bit of scrambling, there are secret footpaths among the rocks that lead to peaceful inlets and occasionally a bit of shade.
